

May Thy grace prevail. May Thy light be the light. May the consciousness of Formless, oh Form, oh Endless, oh End, oh Effect, oh Being, the Supreme Being, oh Doer of all doings, oh Reality in every reality, oh Truth in every truth, oh Existence in every existence, oh Light in light, oh Element of every element, Change in every change, oh Depth of every depth, oh Height of every height, it is Thy greatness unto Thy weakness in us; we seek on this moment into Thyself, through that creativity, that all be one with each other to find the oneness of brotherhood, love and strength of that ecstasy of the human being in reality, so that we can meditate on Thee up to Infinity, find the greatness of peace, bliss and calmness. Effect those, oh Effectiveness, oh Peace in peace, unto Thee, all Cause of this humanity and this human assembly of Thine. Pray for the peace unto the human being. On this planet we all vibrate through the breath given by You. In our humble potential self unto our infinity, grant the man to live in peace, love, beyond ego, especially this day when the dark clouds are hanging, when the fate of the man is in the scale of such creative activity. Unto Thee we ask that there has been enough suffering. Restore peace through Thy mercy and greatness, unto Thy Infinity; and today we pray to all to Thee through these vibrations of the Holy Nam, let peace be to those hearts that are suffering, and happiness may return to the suffering mankind. And give us the power to live in humility and extend Thy Name in ecstasy. Oh, Lord God of Thy creation, oh Creation in itself, turn these days unto the light, so that man can find peace with peaceful heart to meditate and pray on Thee, to grant this boon to mankind.
